

BOLT-ON OIL FILTER ADAPTERS FOR VRG 330/220 AND F817

Accessible for maintenance and filter replacement. The Arrow Bolt-On Filter Adapter is designed to bolt directly to the engine. No more brackets and leaking hoses. Quick spin-on filter replacement.

Heavy-duty construction. The Arrow Bolt-On Filter Adapter is all aluminum construction, with a cold-rolled steel-reinforced thread filter stem, for added strength and sure fit.

VRG 330/220 Adapter Features

- **Increased oil capacity**
- **Reduced oil flow restrictions**
- **Bolts directly to the engine**
- **All gaskets and bolts are included in kit**

Part # HW216255

F817 Adapter Features

- **Dual parallel flow configuration**
- **Bolts directly to the engine over the oil line flanges**
- **All gaskets & bolts are included in kit**

Part # HW145355
