

Get in the loop

Arrow Engine company has a reputation for excellence since 1955. Our customer service driven attitude and attention to product detail is what makes our combination of replacement parts, engines, compression products, and gas products a total package solution.

Arrow Advantages

- All the oil and gas well completion products you need in one place.
- Over 100,000 sq ft of state-of-the-art manufacturing capacity.
- Complete engines and compressor packages available in stock for immediate fulfillment.
- More than 50,000 engines and compressors manufactured in 40 years of production.
- Over 1,000 years of combined experience in design and manufacturing of compressor packages.
- ASME Code shop to handle all of your welding needs in house.
- Strategic advantage as a division of TriMas Corporation, a \$1.4 billion multi-national organization.
